# SJS Asks Final Closing of Seventh Street

## Hearing Set Friday For Accused Slayer

Preliminary hearing for Clarence McDowell, 22, charged in last week's knife slaying of a retired nurse will be held Friday at 2 p.m.

McDowell was arraigned yesterday afternoon on charges of murder and robbery before Judge

Louis Doll in the San Jose Municipal Court.

McDowell is charged with the death and robbery of Miss Mildred Pedrick, 62, who died after an attack Thursday in a laundromat near SJS campus.

McDowell has been held in County Jail without bail since Friday.

"Because of legal procedures, trial won't be for at least six months," District Attorney Louis Bergna said.

At yesterday's arraignment, McDowell was also charged with robbery and attempted rape in the near fatal beating of University of California coed Bernadette Henderson in Hotel Sainte Claire garage two weeks ago.

Police said that McDowell admitted the attack. Fingerprints, they added, connect him with the Sept. 12 attack on Miss Henderson, who is still in a coma and in critical condition at Santa Clara County Hospital.

## Dominicans To Collect Rebels' Arms

SANTA DOMINGO (UPI)—Dominican authorities yesterday planned to remove a big arms cache from the rebel zone in an effort to ease tensions here.

Officials said one person was killed and 17 wounded in fighting which erupted with the return of former President Juan Bosch.

The weapons, including at least one tank, several bazookas and some automatic weapons, were stored in the basement of the National Conservatory in the rebel zone.

The plan was to move them to the parking lot of the National Palace.

An aide to Provisional President Hector Garcia-Godoy said the move was "psychological." The weapons had been collected from civilians.

Bosch appeared in the former rebel held zone of Santo Domingo Sunday after attending church services, and attracted a crowd of hundreds.

Yesterday, Bosch continued to hold court at his home in the rebel zone.

He told newsmen Sunday he would not leave the zone, which is surrounded on three sides by troops of the Inter-American Peace Force, until the last foreign soldier left Dominican soil.

## Invitations Ready For Parents' Day

Send-home invitations for the third annual Parent's Day, Saturday, Oct. 16, are now available in the Student Activities Office, ADM 242 and the information desk in the Administration Building.

The invitation includes a summary of the day's activities, which end with the SJS football team meeting Arizona State in Spartan Stadium.

Other scheduled events include departmental open houses, campus tours, student entertainment and open house at campus-approved living centers.

## PSA Announces Flights From S.J.

PSA airlines will begin "commuter" flights to Los Angeles from the new San Jose airport with an ambitious schedule of 60 flights a week, PSA President J. Floyd Andrews announced today.

Flights will begin Oct. 8 and will leave San Jose four times a day Monday through Thursday and Saturdays, five are planned for Fridays and Sundays to accommodate the heavy weekend traffic, a PSA travel agent said.

"We expect to do a great business from the new San Jose airport," said airline President Andrews. The morning flights will continue to San Diego, he added.

DREAM COME TRUE—This was the scene Oct. 1, 1963, as Seventh Street closing ceremonies took place. Hopefully, this picture will become a permanent one when City Council decides Seventh Street's future.

## Pakistani Request Rebuffed by Rusk

NEW YORK (UPI)—Secretary of State Dean Rusk yesterday rebuffed a Pakistani effort to get the United States to by-pass the United Nations and intervene more directly in the Kashmir dispute.

American officials said that Rusk, in the course of a one-hour conference with Pakistan Foreign Minister Z. A. Bhutto, emphasized that the United States had been

and would continue to work "fully within the framework of the Security Council" on all aspects of the matter.

The Pakistani told newsmen after his talk with Rusk that the breakdown of the cease fire in the Lahore area, which he blamed on India, proved Pakistan's contention that the truce would not hold unless the U.N. makes rapid progress on a political solution of the dispute over the fate of Kashmir.

Bhutto told reporters that Pakistan President Ayub Khan "wants to come to the United States to talk with President Johnson" about Kashmir and a number of other problems. He said, however, that he did not know just when this might be arranged.

## Dean Burton's Mall Design Spurs City Council Action

San Jose City Council last night voted to extend the closing of Seventh Street for another 90 days and to begin legal proceedings for the street's permanent closing at next Monday's meeting.

In a surprise move, SJS Executive Dean C. Grant Burton appeared before the council and requested them to permanently close Seventh Street.

"My purpose here tonight is to initiate proceedings for permanent closure of Seventh Street between San Fernando and San Carlos Street," Dean Burton stated.

"We are ready to start plans for a Seventh Street mall to improve the campus aesthetically and functionally," he said.

Councilman Robert I. Welsh moved that council take no definite action at the meeting but that the request be referred to the City Attorney Ferdinand Palla for further study.

Councilmen declined action on Dean Burton's request last night in order to study specific plans for Seventh Street.

The councilmen delayed the action due to Dean Burton's unexpected visit. The matter was not part of the regular council agenda.

Instead, Dean Burton made the request orally shortly before council adjourned at 11 last night.

The current closure of Seventh Street expires this month.

Seventh Street has been closed "temporarily" since Sept. 30, 1963.

Permanent closure of the main street through campus would involve rerouting traffic. Controversy arises over who should pay for the improvement of adjacent streets to handle diverted traffic.

In March, 1962, San Jose City Manager A. P. Hamann said SJS would have to "bargain" with city officials to have Seventh Street closed permanently.

By "bargaining" Hamann meant that SJS should convince the State Department of Public Works to reimburse the city for widening of Ninth and 10th Streets.

A two-year study of the problem by Wilbur Smith and Associates began in 1961. Major recommendations of the \$75,000 survey were:

—Seventh, San Carlos and San Fernando Streets be closed to "unify" the campus and reduce traffic accidents.

—Provide more garage facilities to compensate for lost parking space.

—Show "no effect" on downtown traffic after closing the streets where they meet campus.

Students passing between classes caused innumerable traffic jams so SJS suggested closing the street through campus in 1961, according to Executive Dean C. Grant Burton.

In May, 1963, the city council voted 4-3 to close the street temporarily, pending receipt of a report by the State Department of Public Works.

## Grad Limit Re-Adjusted

San Jose State revamped its graduate admissions procedures because of the ceiling placed on the total enrollment of the college and the necessity for a quota to be set in the graduate division instead of the usual policy of unlimited graduate admissions.

The reason for the ceiling was because of a faculty shortage and the desire of the administration not to overload the instructional staff. Student population also had a great deal to do with the slowing down of admissions.

The Academic Council of the College (the faculty advisory group) resolved that admissions priority should be given to those graduates seeking credentials, certificates, and masters degrees. Students that are denied admission to departmental programs are now given the opportunity to be admitted as "Unspecified Graduate Students."

## Atheist Madalyn Murray Freed After Arrest

SAN ANTONIO (UPI)—Atheist Madalyn Murray, whose law suit led to a Supreme Court ban on organized prayer in the nation's public schools, was free in \$500 bond today, the result of a habeas corpus writ filed by the American Civil Liberties Union (ACLU).

Mrs. Murray was arrested here Saturday night following her deportation from Mexico. Police made the arrest on the basis of Baltimore, Md. warrants charging her with assault and battery stemming from a scuffle with police. Following her release from jail

Sunday Mrs. Murray and her 10-year-old son, Garth, went temporarily to the home of a Unitarian minister, the Rev. William de Wolfe, local chapter president of the ACLU.

The plump, 46-year-old divorcee vowed to fight extradition to Baltimore.

De Wolfe said he had never met Mrs. Murray until she was released from jail. He said she plans to rent an apartment pending her Oct. 8 hearing on the writ.

Asked why he took in Mrs. Murray, called by some "the most hated woman in America," De Wolfe said "because I have a profound interest . . . I believe there are real legal questions in her situation that really deal with civil liberties."

He did not elaborate. After her arrest Mrs. Murray refused to be fingerprinted or photographed by jailers. She gave in Sunday at the request of her attorney, Maury Maverick Jr., who has been prominent in Texas cases involving individual rights.

## SJS Socialist Club To Seek Affiliation

The Committee for Socialist Action (CSA), under the leadership of chairman Dennis Bayard, will be seeking recognition as the Young Socialist Alliance (YSA) at tomorrow's Student Council meeting.

Peer Vinther, a student member of CSA, said that the action will entail applying for a change of name and constitution in order to meet the requirements of the national YSA. CSA was a recognized group at SJS last year.

Vinther said that the major plans of the new group centered on the International Days of Protest, scheduled for Oct. 15 and 16. A teach-in at SJS is being planned. Organized by the Viet Nam Day Committee in Berkeley, the International Days of Protest action is expected to involve some 70 cities in the United States.

## Critics Sought

Faculty reviewers for the spring '66 semester Faculty Book Talks are now being sought, announced Dr. Ved Sharma, chairman of the Book Talk Committee.

All book talks will be held on Wednesdays at 12:30 p.m. in Rooms A & B of the Spartan Cafeteria.

Interested faculty members should contact Dr. Sharma at Ext. 2138 or FO234.

## Young Republicans Set 'Captive Nations' Rally

Plans for a "Captive Nations" rally and counter-actions against the Viet Nam Day Committee will be discussed when the Young Republicans (YR) meet at 8 p.m. in H5, Bill Pollacek, YR president, announced.

Margaret Leete, chairman of the Santa Clara County Republican Central Committee will also speak.

Pollacek said the "Captive Nations" rally, which is intended to recognize and offer a petition of support to people behind the Iron Curtain, will be held Oct. 22 on Seventh Street.

Plans to offer a counter-action against the demonstrations of the

Viet Nam Day Committee are only in an embryonic stage, Pollacek reported.

## Fall Semester Registration

# Enrollment Down 400 From Estimate

CHEERFUL STUDENTS comprise a part of the long line waiting to pay registration fees. Yesterday at 4 p.m. was the last day to pay fees without a late charge of \$5. Many students waiting in the line at 4 p.m. Monday will be charged the late fee.

For the first time in more than 15 years, SJS has not increased its enrollment over the previous semester.

A total of 19,600 students, 400 short of the expected 20,000, filed through the long registration lines during the three-day registration, Sept. 15-17.

After a two-day reprieve, classes began as scheduled on Monday, Sept. 20.

Turn-in of registration materials and payment of fees began last Thursday and ended yesterday at 4 p.m.

Many students, deciding to wait until the deadline, found themselves at 4 p.m. waiting, with hundreds of others, outside the Women's Gym in a line that stretched out to and along Seventh Street.

Students waited as long as 45 minutes to get inside the gym, only to find themselves waiting in other lines to pay their fees, receive their student body cards and finally, to turn in their class cards.

Cold winds and occasional drizzle made the line seem longer and move slower than (Continued on Page 2)

## Editorial Comment

### MUN Deserves Funds

The Financial Advisory Board (FAB) today will reconsider a \$650 request for funds from Model United Nations (MUN). The reconsideration was prompted by Student Council's refusal to accept FAB's original recommendation that MUN be deleted from this year's ASB budget.

Two years ago the MUN held its Western States convention at SJS. Delegates from 109 western colleges and universities participated in a startlingly realistic portrayal of the United Nations. This stark drama of international politics provided more educational experience than three semesters of lectures or textbook study.

The convention proved to be a smooth production but was as unpredictable as the U.N. itself. Highlight of the session was the General Assembly visit of Soviet U.N. Ambassador Nikolai Fedorenko.

It is a mistake to assume the MUN has general campus supports. Its 1963 session was greeted with pickets, harassments, and organizational problems. There may now be MUN opposition within the FAB, in view of the recommendation to choke off its funds.

The MUN is a student's United Nations. The lessons it teaches and the issues it debates are as important to its student participants as to veteran international diplomats in New York.

It is damaging and purposeless to consider any action which would impair this college's MUN organization. FAB should give the highest consideration to granting MUN's funds. Six hundred and fifty dollars is a paltry sum in comparison to the immense educational and practical experience offered by the MUN.

### State Department Files Execution Complaints

WASHINGTON (UPI)—The State Department charged today that the Viet Cong's execution of two American prisoners was "in direct violation" of the 1949 Geneva Convention on rules of war signed by North Viet Nam.

A spokesman said the United

States was asking the international committee of the Red Cross "to take all possible action within its competence with respect to these violations."

The State Department called the announced executions of Capt. Humbert R. Versace of Baltimore and Sgt. Kenneth M. Boraback of Fayetteville, N.C., "two more acts of brutal murder against American military prisoners."

State Department spokesman Robert J. McCloskey quoted the official North Vietnamese radio as saying the two latest executions were in reprisal for the Saigon government's execution of three Viet Cong in Da Nang last week.

"No trial of the American prisoners was held," McCloskey told newsmen. "No specific offenses were even charged. These murders violate the sense of decency of all civilized men."

## New College To Offer Liberal Arts Venture

By PEGGY POLK

**United Press International**  
NEW YORK (UPI)—Before very long an experimental new liberal arts college may be opening its doors to students in the lush resort country of New York's Catskill Mountains.

All that stands between the idea of Verrazzano College and the reality at this point is \$5 million, a considerable sum to most people but no roadblock to the force behind the proposed college.

That force is bachelor lawyer-restaurateur Gilbert A. DiLucia, a 38-year-old native of Greenwich Village, who received degrees from the New York Maritime Academy, Columbia University School of General Studies and Syracuse University Law School and did graduate work at The Hague and at Oxford and Perugia Universities.

**NO ENGLISH MAJOR**

He started formulating the idea of Verrazzano College, to be named for the 16th century

Italian explorer, three years ago and already has accumulated more than \$1 million in assets, including a 302-acre site in Woodridge, N.Y.

Equally important, DiLucia also has detailed plans—worked out by a group of prominent educators—for a new venture into the field of higher education.

For one thing, Verrazzano's 1,500 students will not be able to major in that staple of most liberal arts colleges—English literature. For another, a junior year abroad will be mandatory.

This is because a major goal of the institution will be to train prospective leaders in the field of international affairs.

Students will have their choice of six majors: history, government, economics, sociology, art and philosophy. Courses in other subjects, such as English and the sciences, will be offered in support of the majors.

During their first two years, Students will devote themselves to intensive training in the

language, history and culture of the Mediterranean area country in which they will spend their junior year.

The plan calls for establishment of four college centers staffed by Verrazzano faculty in Athens, Jerusalem, Rome or Florence and Beirut or Cairo.

"This will not be a year of sightseeing, inept stumbling through studies with inadequate language facility or a gay frolic abroad," DiLucia says. "It will be a year of work which could not be otherwise accomplished."

#### THE PLANNERS

Credit for the plan goes to a group of educators headed by Prof. Donald Sheehan, chairman of the Smith College History Department and a member of a Ford Foundation study group which looked into ways of improving the administrative and educational structure of American colleges.

The 18-month study on the Verrazzano College plan, completed last March, showed it would take \$16 million to establish such an institution as the educators envisioned, but it could start out with \$5 million and a 10-year building program.

Why did DiLucia become involved in all of this?

"I just wanted to make a contribution," he says. "I feel strongly that every one of us in the United States should give something back to this country. The only reason a lot of us have anything at all is because we are in this country."

## Average Astronaut Well-Educated; Has Over 3,000 Hours in Flight

HOUSTON (UPI)—The average American astronaut is a young man with a good education, average build, brown hair and blue eyes, and a hometown north of the Mason-Dixon line.

And he has put in more time flying airplanes than most people will ever get traveling in planes.

The National Aeronautics and Space Administration (NASA) compiles the picture of an average astronaut from the statistics of the 28 U.S. spacemen.

The average is 35 years old, weighing 161 pounds and stand-

around 5-feet-10-inches tall. He has more than 3,000 flying hours, including 2,500 in jets and a few in spacecraft. He had bachelor's and master's degrees and some credit toward a doctor's degree.

Five American astronauts are civilians and 23 are in some branch of the military. Around one-fourth have flown in combat, but none became an ace.

All are married and their broods total 41 boys and 33 girls.

The youngest astronaut is 29 and the oldest 41. There is no American astronaut over six feet tall or under 5-6½.

# SJS Hopes To Rebound Against USU Saturday

SJS entertains Utah State Saturday night in the gridiron's home-opener at Spartan Stadium with coach Harry Anderson's crew trying to rebound from a hard-fought 17-7 loss to Idaho last weekend.

The highlight of the game for SJS was a well executed screen-pass from quarterback Ken Berry to halfback John Travis. The play carried for 69 yards and the Spartans' lone score. Jim Mequire kicked the PAT.

Both offenses had trouble with

fumbles as Idaho lost the ball four times to SJS. The Spartans fumbled the pigskin twice to the Vandals.

SJS had two drives during the contest that stalled deep in Idaho territory. One was stopped when one of Berry's tosses was picked out of the air by the Utah defense. A penalty provided the halt to a SJS drive on the second occasion.

Ten of Idaho's 17 points came when the Vandals capitalized on two SJS mistakes.

## BAD PASS

In the second quarter a bad pass from center on an attempted punt put the Vandals on the Spartan 41. It took the winners five plays to score with quarterback John Foruria hitting pay dirt on a 24 yard run.

Early in the fourth period the Spartans went for a first down with fourth and one to go on their own 39. Berry was stopped short and the Vandals took over.

Seven plays later Darrell Danielson kicked the ball through the goalposts for the game's final three points.

Fullback Ray McDonald gained 112 yards in 12 carries against the Spartan defense. Charley Haraway picked up 73 yards in 24 carries for SJS.

Travis bagged five of Berry's passes for 88 yards.

## VISITORS UNDEFEATED

Saturday night the Spartans tangle with a grid squad that has the exact opposite record. Utah State has trounced Hawaii 34-12 and Arizona State 13-0. SJS has lost both of its contests.

Anderson is worried about the fact that the Aggies are unbeaten and have a very explosive backfield, led by Roy Shivers of Oakland.

"Shivers is one of the best backs we'll face all year. He can run the 100 in 9.7 and in 32 carries this season has yet to lose a yard rushing," Anderson said.

## Spartans Ramble In Season Debut; Stomp Chico 9-0

The SJS soccer crew got its 1965 season off to an impressive start Saturday, with a 9-0 conquest of Chico State.

Ernest Kwansa booted home three goals, and the Sermol brothers, Hap and Joe, tallied two each in pacing the Spartans' scoring attack.

Coach Julie Menendez was especially pleased with the performance of his defensive line. "Not only did they keep Chico from scoring," he said, "but they also did an excellent job of setting up goals for our offense."

Menendez singled out fullbacks Steve Locci and Heros Esraillian, halfbacks Hap Sermol, Hercules Mihelis and Mani Gonzales, and goalie Frank Mangiola with keeping Chico off the scoreboard.

The Spartans meet USF this Saturday at Balboa Park, in a contest which could be important in determining the NCISC title this year. USF is rated first and SJS second in pre-season forecasts.

SATURDAY'S HERO — Spartan halfback John Travis caught five passes, one for a touchdown, in SJS' 17-7 loss to Idaho.

# Spartan Poloists Smash UOP Before Full House Friday Night

SJS water poloists lost one of their two weekend contests, but Coach Lee Walton can't be more pleased with their performance.

After whipping University of Pacific 17-2 Friday night before a standing room only crowd in the Spartan pool, the Spartans lost to a veteran Olympic Club outfit 7-6 in San Francisco.

In Friday's contest, fans turned away at the pool poured into the Men's Gym where the game was being shown on television, courtesy of the Audio-Visual Department.

Against the Tigers, Walton effectively used three platoons with no apparent loss in offensive momentum or defensive ability.

## QUICK LEAD

The Spartans gave an indication of what was to come by scoring on its first offensive threat and jumped out to a 6-0 first quarter advantage.

One of the UOP goals came on a penalty shot, while Jim McKenzie lobbed in the other marker for the visitors. McKenzie, a Northern California first team selection last season, was outplayed by 14 members of the Spartan squad in Walton's estimation.

Don Moore and Steve Hoberg

led the SJS scoring with three goals apiece, with Sheldon Harmatz and Kevin Currlin adding two each.

Walton was even more impressed Saturday night although the Spartans lost. Walton, usually not outspoken, complained that "the refereeing was the worst I have ever seen."

PHYSICALLY BRUTAL. The coach said he is also unhappy with the "non-water polo tactics the hosts resorted to." Weighing an average of 20 pounds per man heavier than the Spartans, the Olympic Club competitors were "physically brutal."

"If they have to resort to these tactics to win a game, they shouldn't be playing," Walton added.

Walton, however, said he is happy with the determination of

his players despite "the obvious obstacles," and especially praised Moore and Harmatz, who both scored two goals.

Comments on Duties

Robert Lauritzen, UC graduate and 12-year veteran of the SJS library staff, has assumed the duties of acting head librarian until Dr. Stuart Baillie assumes the position of head librarian Dec. 15.

Lauritzen, reference services librarian, was appointed to the interim post in May following the resignation of Joyce Backus.

SJS library staff includes 42 professional librarians, 41 clerks and many student part-time workers, according to Lauritzen.

Another new face among this year's staff is Stanford Sorensen of the Humanities Division.

Sorensen, a native of Idaho, received his Master's degree in librarianship from the University of California at Berkeley after previous graduate work at the University of Arizona and San Francisco State. He also holds a degree from Brigham Young University.

Lauritzen added that the college is still trying to fill vacancies left by the resignations of Mrs.

Linda Been of the science reference room and Misses Priscilla Wong and Ada Feldman of the catalog department.

UCCS Slates  
First Lecture  
Tonight at 7

The United Campus Christian Fellowship Group (UCCS) will present Dr. Gary Albright, assistant professor of philosophy, speaking on "The Perils and the Possibilities of the College Social Arena," tonight at 7 in the Campus Christian Center, 300 S. 10th St.

Dr. Albright will cover the philosophy of the academic community, the general nature of the scientific world view, the social milieu and the relationship of the Christian Faith to these areas.

This presentation will be the first in a series which will be held every Tuesday night by UCCS. UCCS is a campus affiliation comprised of the Presbyterian, United Church of Christ and the Disciples of Christ.

UCCS is also in joint sponsorship with the Lutheran Student Association (NLG) and the Canterbury Association which is an Episcopal affiliation on campus.

## Allan Appointed

William G. Allan has been appointed Coordinator of Audio-Visual Utilization Services succeeding David D. Cram.

Cram has been granted a two-year leave in order to do his doctoral work and to teach at Syracuse University.

Allan assumed his duties Sept. 1.

## Could you noodle out solutions like these...right after graduation?

(Then see our man on campus. He's got a career for you.)

Joe Lacey B.S. in Electrical Engineering, Stanford.

First assignment: Find the best possible way to replace isolated mountain-top repeater stations in case they were damaged. Solution: Joe produced a design for an 18-foot truck trailer microwave repeater unit. One that could be moved quickly to even the most rugged location. Good idea? We ordered 22 of the trailers built at a cost of about \$2 million.

Howard Herbert B.A. in Business Administration, University of Redlands.

First assignment: Develop a procedure for non-management training and supervision of all records and reports in the Santa Ana Traffic District. Job well done? We made Howard coordinator for all facility arrangements involving moves and enlargements in that office.

Don Turley B.S. in Physics-Electronics, San Diego State.

First assignment: Analyze the effect of atmospheric conditions on microwave transmission in the Imperial Valley. Don also had to design microwave radio relay routes, take field explorations, note transmission measurements and analyze the appropriateness of the selected sites. Result? Don's study will influence the design and construction of future microwave systems all over the country.

Iver Trebon B.A. in Liberal Arts, San Fernando Valley State.

First assignment: Study and analyze the district sales and collection activities and develop a program for improvement. The outcome: We liked Iver's ideas so well that we put him in charge of an exchange where he successfully carried out his own recommendations.
